

Ph.D. in Integrative Conservation

Supplemental Essay

Instructions:

Please 1) describe how you envision the ICON PhD Program providing you with training or experiences that are different than a traditional disciplinary-based PhD program in your chosen field, and 2) briefly share your ideas - be they general or specific - about your intended integrative research project or your previous experience with integrative work. Please limit your response to 600 words.

3) Finally, please list your preferred faculty advisor. We depend heavily on a prospective advisor's interest in applicants in the selection process. We strongly encourage you to speak with your prospective advisor before applying.
